

Dotarea laboratorului de incercari fizico-mecanice
Responsabil – Prof.univ.dr.ing.ec. Alexandru Popa

Nr.crt.	Denumirea aparatului	
	Computerized fiber fineness analysis system	 A photograph of a computerized fiber fineness analysis system. It includes a black microscope on the left, a central computer monitor displaying a software interface with various graphs and data tables, a keyboard, a mouse, and a white printer on the right.
	Elmendorf tearing tester	 A photograph of an Elmendorf tearing tester. It is a mechanical device with a large, curved, semi-circular scale on the left side, mounted on a dark base. A vertical rod and a horizontal arm are visible, used for measuring the force required to tear a sample.

Digital air permeability tester

Fabric crease recovery tester

Cutter
