About the Conference

Held within the Faculty of Educational Sciences, Psychology and Social Work, the First Edition of the *International Conference on Social Work Practice, Health and Education* will take place between May 28-29, 2024.

ICPSWHE 2024 aims to build stronger relationships with fellow social workers and professional associations around the world.

Social work as a profession is more than ever called upon to respond to increasingly diverse challenges, both at the individual, group and global level. Social workers, as agents of change, are challenged to respond creatively to the pressures of a society of risks in order to restore balance and social security. The theme of the conference approaches the subject of solidarity as a key concept in social work, which has become the answer to countless modern challenges, such as the pandemic, armed conflicts or other serious social problems.

There are to be discussions regarding aspects such as global politics which aims to the growth of social cohesion and growth of trust in protection institutions as a foundation for a high wellbeing level. Training and increasing resilience has become a goal of social work intervention at the individual level in an era where social security, peace and social inclusion are seriously affected. As specialists in social issues, social workers seek to inspire, to build bridges in order to create a safer and more inclusive environment. Conference participation provides and international context of sharing ideas and facilitating professional development for university and pre-university professors, social workers, representatives for professional organizations, public institutions, students, researchers, PhD students from educational sciences, psychology, sociology and social work fields.

Conference participation, offers an international context to exchange ideas and best practices and to facilitate professional development, to university and pre-university teachers, social workers, representatives of professional organizations, public institutions, students, researchers and PhD students in the fields of educational sciences, psychology, sociology and social work.

The conference will extensively cover the following topics:

- Building a new world through solidarity
- Quality of health care for the disadvantaged groups
- Solidarity and trust in times of war
- Teaching evidence-based practice: Toward a new paradigm for social work education
- Resilience and transformative vision in the research of social assistance
- Social work and human rights: good practices, theoretical frameworks for resilience and transformative actions towards human rights
- Social assistance and durability: eco-social initiatives and environmental approaches in social work for building resilience and transformative actions.
- Social work under the influence of digitalization
- New teaching methods and learning in an inclusive form of education
- Forming and professional development of social workers regarding socio-cultural changes
- Transformative actions in the practice of social work: changes, programmes, local or global interventions
- Inclusion and equality for minimising educational inequality

ARAD, 28th -29th of MAY 2024

- Leadership and management in social work
- Education towards resilience, protection and well-being
- Socially involved teaching and learning- looking after students and communities
- Career development, coaching and training
